**Subject:** "Draft for Comment" GAWB

I believe Mr Beattie should do a better 'job' than handing a situation like this over to people who by the looks of things have no understanding of the rural community, as can be seen by this draft. Suggesting that an increase to the cost of water supplied to the residents of Mt Larcom of 1300% is acceptable is outrageous.

Why are we penalized for being "Water Wise" or for being at the very end of the water network from the Awoonga Dam. The suggested water price is not affordable and will stop any further development in this part of the Calliope Shire.

Why are we being singled out by the Queensland Competition Authority?

Shame on you, Mr Beattie and the QCA for even allowing such a draft to see the light of day.

This is an unjust draft and we will not tolerate being treated as second class citizens. We deserve better.
