QLD COMPETITION AUTHORITY

- 2 FEB 2005

DATE RECEIVED

To Whom it may concern,

being a pensioner in Mt. Larcom, and realise the value of our water & in the community, I believe the price increase in our water will be unaffordable.

As it is now, I'm flat out affording to pay for the water I am using now.

Some things will have to be let go, to afford the other 4000 litres to be paid for, I think this is ridiculous price to pay for a bit of drinking water.

The authorities should try living on a little bit of pensions, as we do.

I will not tolerate being treated as a second class citizen.

Yours faithfully

K Lester
