Dear Sir

Enclosed a copy of information I received from my sister A Brady, Mt Larcom outlining the move by the Queensland Competition Authority Re. the intended costs of water to Mt Larcom. The frightening statistics could be a forerunner to costs all over the state.

It is well know, that controversial issues such as Lime and Shale Oil possibly are endeavouring to eventually price the residents out, to then have full reign. You can see the astronomical costs of water to Mt Larcom would certainly be the end of the town of Mt Larcom.

Mt Larcom was my hometown for leave during my long service R A N 1943-1972 hence my concern.

Wal Manning

A handwritten signature in black ink, appearing to read 'Wal Manning', with a long horizontal flourish underneath.
