DATE RECEIVED

To whom it may concern,

My committee has asked me to write to you to protest against your proposed new water prices to the Gladstone Area Water Board.

A rise from \$0.65 a kl to \$8.69 a kl of water is unacceptable and we believe must surely be a world record.

We consider it outrageous and unaffordable and how these prices were calculated is beyond our comprehension.

Our club cannot afford these new prices and our club would have to fold.

We feel that this proposal is a discrimination against the township of Mt. Larcom and would like to protest in the strongest possible way.

Regards,
Peter Tappenden,
Secretary.
