From: John Tanner

49 Coe's Road, South Kolan, Q 4670

To the Team Leader,

After the meeting we had in Bundaberg I am more concerned about the price of water going up. With the Australian dollar being so high, and the sugar price falling each week and now has come back to 20 cents a pound. Any price in sugar below this 20 cents a pound will cause hardship.

Any increase in water charges will put small farmers like myself out of business.

I hope this recommendation that the price of water stay the same; can be passed onto the relevant government authorities.

Yours Sincerely
